

CONCLUSION AND SCOPE FOR FUTURE WORK

GMS provides a computerized version of gym management system which will benefit the members as well as the staff of the gym. It has a facility for staff login where staff can login and can add members, trainers and make payments, delete and update the details of members, trainers.

There is a future scope of this facility that many more features such as equipment, fitness club, medical facility can be added to this project thus making it more interactive and user friendly project which fulfills each users need in the best way possible.
